softwareQ: Git commands to clone a project I'm trying to clone a git project I found on github but it's not working.

What I've done: git clone and have done the following commands: git clone cd design but when I enter the last command I get this error: fatal: repository " not found can

someone help me? A: Your remote repository is not "design.git" but "design". See [remote "origin"] and

[branch "master"] in.git/config for the origin/master

remote and branch master. FILED NOT FOR PUBLICATION
